## Ronsin Photocopy

Your Legal Services Partner

Ronsin Photocopy is a multidimensional litigation support services company. We began in 1976 as a local **record retrieval** service operating on behalf of the insurance industry. Since then, we have expanded our services to include not only document reproduction, but a full line of statewide Attorney Services and Document Imaging. Through years of hard work, excellent customer service and professional results, Ronsin has experienced tremendous growth. Our success became evident when we offered our services statewide. Our first office, in Northern California was opened in 1994 and Ronsin now has more than a dozen offices throughout California; as far north as Chico and as far south as San Diego.

By utilizing the skills and knowledge of a management team that averages 17 years of service at Ronsin, we can reproduce the finest quality documents in record time.

We believe you will be pleased with the array of services offered by Ronsin...

## Attorney Services

While Ronsin has predominantly been referred to as a document reproduction service, in 1994 we expanded our business to include the full array of services traditionally offered by a local attorney service. By merging with an existing company, we were able to capitalize on the ability and understanding of managers and employees who know how to provide quality service in their respective field.

Attorney Support Services

Our attorney service company has over 20 years of experience in the legal support industry. The **Process Serving** division knows how to do the job right and can deliver anywhere in California. We can provide you with comprehensive **Court research**, with access to over 150 courts in all 58 counties. Additionally, we appreciate the opportunity to provide you with the following benefits:

- Court Filings
- On-Line Services, Including a Full AP system
- Statewide Services
- Immediate Web Updating
- Flat Rate Pricing

We are committed to providing the best process and court service available in the industry today. We do this by providing rapid turn-around time, the highest quality and clear communication.
